## PENSION INCREASE

Readers will note by the advertisement below that old-age pensions are to be increased by \$5.00 per month. This will certainly be good news to our old-age pensioners and our British Columbia Government is to be commended in losing no time in putting this into effect after being informed by Ottawa that the move is in order. Old-age pensioners are finding the going hard enough, even with the \$5.00 per month cost of living bonus, and this extra five dollars a month will be gratefully received.

It is worthy of note that British Columbia is one of the most progressive provinces in Canada as regards payment of old-age pensions. The advertisement below explains.

## Bank Of Montreal Here Thursday

Representatives of the Bank of Montreal will be at the Sidney Trading store on Thursday afternoon, Sept. 30, from 1 to 3 o'clock, to transact general banking business. This is an opportunity for many local residents to cash their cheques, make deposits, etc. Tell your friends of this service, if they do not already know.

## LETTERS TO THE EDITOR

The Editor assumes no responsibility for the views expressed by correspondents. All letters must be signed by the writer for publication. Writers are requested to be brief and to the point. Kindly write or type on one side of your paper only.

## QUESTIONS ABILITY

Sir:—In beginning R. J. Deachman's articles the Editor rather misdirected his readers. He said Mr. Deachman was an expert economist. If an economist is an apologist for an outworn social system, then our Editor may be partly right. The question might be asked, how can one be an economist and be ignorant of socialism? Mr. Deachman clearly is ignorant of socialism and fascism, both of which are better than capitalism as we know it. The only way capitalism can function efficiently is for it to develop into fascism. Mr. Deachman says "I feel that a functioning capitalism holds more of happiness for the people than any form of socialism which can be applied in a country like Canada." Mr. Deachman and I are in thorough agreement tho' he will not hold with my thesis, which is that we can be persuaded to accept fascism—and the dose—and are equally ignorant with Mr. Deachman as to the benefits of socialism.

As for me, I want socialism, if for no other reason than because it will breed such men and women as there are in the Soviet Union today.

F. A. THORNLEY.

## THE BATTLE OF, BY AND for the GUNS!

Without firearms, the victory cannot be won. Our men must face with equal or superior weapons the modern armed foe. And our men must have *all they need*. So the battle for guns—great and small automatic guns—grows in intensity, as the battle of and by guns rages hotter and fiercer.

Canadian workers in scores of factories are toiling day and night to produce these weapons. Great quantities are coming off the assembly lines—Lee-Enfield rifles, Bren guns,

Bofors anti-aircraft guns, Vickers machine guns, heavy anti-tank guns, trench mortars, light artillery, heavy field pieces, coastal defence cannon. What an inspiring battle for guns our men and women workers are fighting!

Six thousand men and women of the Bank of Montreal at hundreds of branches are co-operating closely in rendering to war-workers, war industries and our Government the special banking needs of war-time.

# Increase In Old-Age Pension Rates

**THE** Government of British Columbia has taken immediate advantage of the Order-in-Council passed by the Dominion Government under "The War Measures Act" on August 10 to bring into effect a further increase in old-age pension rates; the maximum increase amounting to \$5.00 a month.

This increase is apart from the cost-of-living bonus of \$5.00 a month instituted by the provincial government and which will be continued in addition to the increase allowed under the latest Federal order.

On August 23 the Provincial Secretary received a copy of this Order-in-Council, together with a copy of a draft agreement which it was proposed should be made between the Dominion and the Province. The agreement contains the following instructions respecting the granting of the increase:

"The maximum pension shall be \$300.00 yearly, (except in the case of a blind person who marries a blind person, in which case the maximum pension shall be \$150.00 yearly), which shall be subject to reduction as follows:

- In the case of an old-age pensioner, by the amount of the income of the pensioner in excess of \$65.00 a year.
- In the case of a blind pensioner who is unmarried or a widower without a child or children or a widow without a child or children, by the amount of the income of the pensioner in excess of \$140.00 a year.
- In the case of a blind pensioner who is married or a widower with a child or children or a widow with a child or children, by the amount of the income of the pensioner in excess of \$340.00 a year.
- In the case of a blind pensioner married to a blind person receiving a pension in respect of blindness under the Old Age Pensions Act, by the amount of the income of the pensioner in excess of \$140.00 a year.
- In the case of a blind pensioner who marries a blind person, by the amount of the income of the pensioner in excess of \$170.00 a year.

The Order-in-Council and the agreement were immediately approved by the Provincial Government. On September 1st word was received from Ottawa that it would be in order to put the increase into effect as from that date and the Provincial Secretary forthwith instructed that this should be done.

Time will not permit the showing of the increase on the September cheques, but as soon after September 30 as possible special adjustment cheques will be mailed covering the increases for this month and the October and subsequent monthly cheques will be issued at the new rate.

# LET'S BE DOING ... while we're planning

Everybody is thinking a great deal about the future these days... planning... getting ready for the period to follow the war. All realize that the war may bring surprises—but the tide is turning in our favour.

Chemists and engineers, producing things needed for war, are making discoveries which will mean comforts and conveniences for all of us when peace comes. New methods of making things, new processes, new materials, now being filed away in blue prints and formulae, will bring us many new and useful articles. Many things not available now will be replaced by better models and designs.

You may have plans for a new home, remodelling your present home, new home furnishings. If you are a farmer you will need new and improved equipment and machinery.

Now, while you are thinking and planning, you can do something to insure that your plans can be carried out. Victory Bonds—which can be bought on convenient instalments, with money as you get it—provide a means of keeping your savings intact, earmarked for things you want.

Most Canadians are saving money. Most of us are buying Victory Bonds and when we buy Victory Bonds we are helping to win the war. We are helping to speed the day of victory and we are doing something that will benefit ourselves.

### WHAT IS A VICTORY BOND?

A VICTORY BOND is the promise of the Dominion of Canada to repay in cash the face value of the Bond on the date of maturity with half-yearly interest until that time. A Victory Bond is the safest investment in Canada backed by the entire resources of the Dominion. Canada has been issuing bonds for 75 years, and has never failed to pay every dollar of principal and interest when due. A Victory Bond is an asset readily marketable at any time.

*When it comes to saving  
 coal — Patriotism and  
 common sense go  
 hand in hand*

**FARSIGHTED** householders are seeing the urgent need of preparing their homes now against this winter's coal shortage. They are acting now!

**HEATING SYSTEMS MUST BE  
 EFFICIENT: HOMES SHOULD BE  
 ADEQUATELY INSULATED.**

Here are some jobs you should be doing NOW!

- 1 Have your entire heating system inspected. Order necessary repairs.
- 2 Have your furnace thoroughly cleaned by a competent man. Insulate furnace and pipes where necessary.
- 3 Be sure that you have sufficient storm windows and that all windows and doors fit tightly. Have cracks in walls repaired. Weatherstrip wherever it is necessary. Consider seriously the insulation of ceiling and walls.

Many homes waste as much as 60% of their fuel through inefficient heating equipment, inadequate insulation and other heat losses. Winter is just around the corner. Prepare NOW!

*---but he's a Japanese Spy!*

Japanese spies don't speak Japanese. They're not that obvious. Axis agents were planted in Canada many years ago, and have entered into the daily life of communities near naval, army and air establishments and our great war factories.

They are safe from detection just as long as careless citizens provide them with facts contained in idle talk and gossip.

Drive the enemy into the open by making him work for his information. Don't gossip.
